A B O U T M E

My field of work is Information technology. During both graduation and 1 year of job (Technical writer), I learned various programming languages and techniques that which are used for website development.

. I also created a blog website as project for my final semester. During my tenure as a technical writer, I create many guides and lab manuals for web development by researching various techniques used for web development.

S K I L L S

- HTML, CSS
- JavaScript
- PHP, Python
- Microsoft Office
- Adobe Photoshop
- CorelDraw
- Visual Studio Code

E X P E R I E N C E

Technical Content Writer
